Hi Nesil

I would be grateful if you would also pass this email on to Geoff Waterton, Head of Service - Assessment and collection services, from whom I received a letter two days ago. Ref: Account Number xxxxxxxx.

1. I wrote to Geoff on 29th June 2020 (copy attached) in response to an earlier demand for Council Tax payment; this letter was delivered with a cheque by hand to your offices but owing to the shutdown of normal activity, I couldn't give it to a person but put it in the letter box by the main entrance. I've received no acknowledgement of the letter nor does the cheque appear to have been presented at the bank.

Subsequently, in response to a text message sent by Enfield Council to xxxxxx xxxxxx on 20th July 2020, I paid £163.18 via the council website but there is no record of this payment on "MyAccount" in spite of this payment being cleared through my bank.

The attached letter is self-explanatory but briefly, we, like everybody else, are victims of the willful sabotage of economic and social activity under the cover of a fake pandemic. COVID-19 is not a virus but a trojan horse to facilitate many other objectives, primarily a reset of the global economy and mandatory vaccination for everyone. Additional evidence that this alleged pandemic is the cover for a global system reset is in the attached paper: COVID19: Plunder and Population Reduction.

In summary, I will continue to pay a third of the Council Tax demanded on the grounds that services have been reduced, arbitrary, nonsensical laws and regulations have impeded normal living and vast amounts of public resources are being wasted on needless propaganda and nonsensical restrictions on everyday life. We know where responsibility for this travesty lies. It is the perversion and corruption of governments, public and private institutions which have brought us to this point; it is they who should be held accountable, not the people they are supposed to serve.

In the letter, I referred to the gold price being a reliable long term indicator of the trajectory of the global economy; at that time (29th June 2020) gold was trading around \$1785, having risen from about \$1200 over the previous year. Today, gold is trading above \$2000 and is likely to continue much higher. All bets are off and collapse is underway; there is an escape from this trajectory but recovery is not possible within the current framework of money. The paper explains the planned trajectory and the means of our escape in much greater depth.

2. Your website, or some other means, needs to be available to see what you are demanding for which month and the amount I've already paid. I have no means to verify the basis on which the latest £571.37 is demanded.

3. It is time for a reality check because the UK and the rest of the world are heading into a disaster of our own making because we rely on governments and institutions to act in our best interests. They

don't. We're all victims in this travesty, including those tasked with implementation of the plan, the purpose of which, they are ignorant.

Finally, for those who see challenges to current government policy as "conspiratorial" - watch this two minute montage of video clips of ministers and health advisers explaining that the evidence for mask wearing is very weak and tell me we are not being subject to nonsensical disorientation.
